

Dear HLC,

I discovered your clinic while searching the internet for more information on Gastric Bypass. Trying lots of different diets and medical weight loss, I felt like that was my last option. I'm so glad I found your website and Kenny. I decided to give a call and try one last option before surgery. I have been on the program for 6 weeks and lost 19lbs. I have the tools to continue my weight loss and feel great. Kenny's sessions were just what I needed and saved me from surgery. I have struggled with self control from emotional eating and have gained my control back. Thanks for everything HLC + Kenny

Love,

Amanda H.
